CIPO

A new type of novelty item for hockey fans and enthusiasts.

It will combine the shape of a hockey stick, with the features of a broom, thus providing a functional housewares item and a fun novelty item all in one.

Produced from molded plastic, it would be shaped and formed to resemble a conventional hockey stick, the blade would be straight, and incorporated into the bottom of the hockey stick blade, would be a multitude of nylon bristles similar to those found on certain types brooms.

Thus an individual could actually use this unit as a broom to sweep floors, sidewalks, decks, etc...
